MIL-SPEC & DID Catalog – Optimum Upgrade

This catalog provides an overview of the MIL-SPEC and Data Item Description (DID) templates and indices included in the Optimum Upgrade toolkit.

Example Inclusions

- MIL-STD-style requirement structures for environmental and interface specs

- DID-based templates for plans and reports (PMP, Test Report, ICD, etc.)

- Index pages for quickly locating key standards and documents

Use this catalog together with the HTML pages and templates in the MIL-SPEC toolkit to organize your compliance and documentation packages.
